

WWE

we say trust is a key factor and liberating to the creative process / leave your comfort zone and enter a new one together / there is always a need for fresh eyes / agree to listen and stop being afraid / make your ambitions clear / push yourself to go beyond what the images actually portray / pull each other back to the original idea

SAY

TEAM

/ adapt your skills, responsibilities, research, and motivation / share your feelings, doubts, and hopes / justify your decisions / adjust your points of view / test your flexibility / constant discussion stemming from various points of view / things will get uncomfortable, appreciate these moments of crisis

UP!
